Tired of Missing You

A capo 3 – which would make it C

(chord progression through the verses is hard to describe – I don't know their names :o(- All of lines in the verse go: A – Am up 3 – Am up 5 – back to Am up 3 – back to A)

I heard you calling me as I walked home tonight
Were you wondering what I'd do?
But your voice faded with the waning of the light
And I was left with missing you

I do okay and on the outside I look fine
Although some days seem black & blue
but when I'm looking at the way I feel inside
I find that I'm just tired of missing you

Chorus:

```
E                    D                A              A7
There's times when I can hear your step upon my floor
E                D                    A      A7
And hear your voice when evening's through
E              D                  A          A7
I'd give the world to see your face at my door
      D                E                A
As a cure for all this tired of missing you
```

I don't hide out in your pillow anymore
And most nights now, I sleep right through
But every morning is just like the one before
And I awake still tired of missing you

Chorus

Your candle burns tonight, light flickers in the dark
Gold is fading into blue
And when it goes out in the morning gray and stark
I'll still be here, still tired of missing you

Chorus
