Oh my darling don't cry

C E

We'll be together again

But today you ride Nicky's train

Joseph waiting in the bathroom

As station master says they must do

But papa says there'll be adventure

when they step onto the train

"Be polite and help your brother

Hold on tight to one another

I'll be waiting with your mother here

'til you come back home again"

Papa says
Oh my son goodbye
Be brave my son and don't cry
We'll be together again
But today you ride Nicky's train

600 rode on that train

Years later take the train home
To a country that they won't know
But no-one's waiting at the station
When they step down from the train
All they find are names on public walls
And of some there are no trace at all
But millions died before the Reich would fall
and the sun would shine again

But they remember Mama said

Oh my darling goodbye
Oh my darling don't cry
We'll be together again
But today you ride Nicky's train

Oh my darling goodbye
Oh my darling don't cry
I'll save your life if I can
And today you ride Nicky's train
